IN PRIMARY CHILDREN'S HOSPITAL

# BECOME A FAMILY ROOM SUPPORTER

The Family Rooms offers amenities to families with a pediatric patient free of charge. These services are made possible through generous donors and supporters, and there are many ways to become involved. Gifts directly impact families experiencing some of life's most heart-wrenching moments, and provide love, comfort, and resources when they need them most. Thank you for your interest.

*"This room has been our sanctuary. It has provided me with hope and happiness during the hardest time of my life. Our other children have had a way to see us during dinner while we have been here. We have been in the PICU for 43 days and this room has been our saving sanity."*
